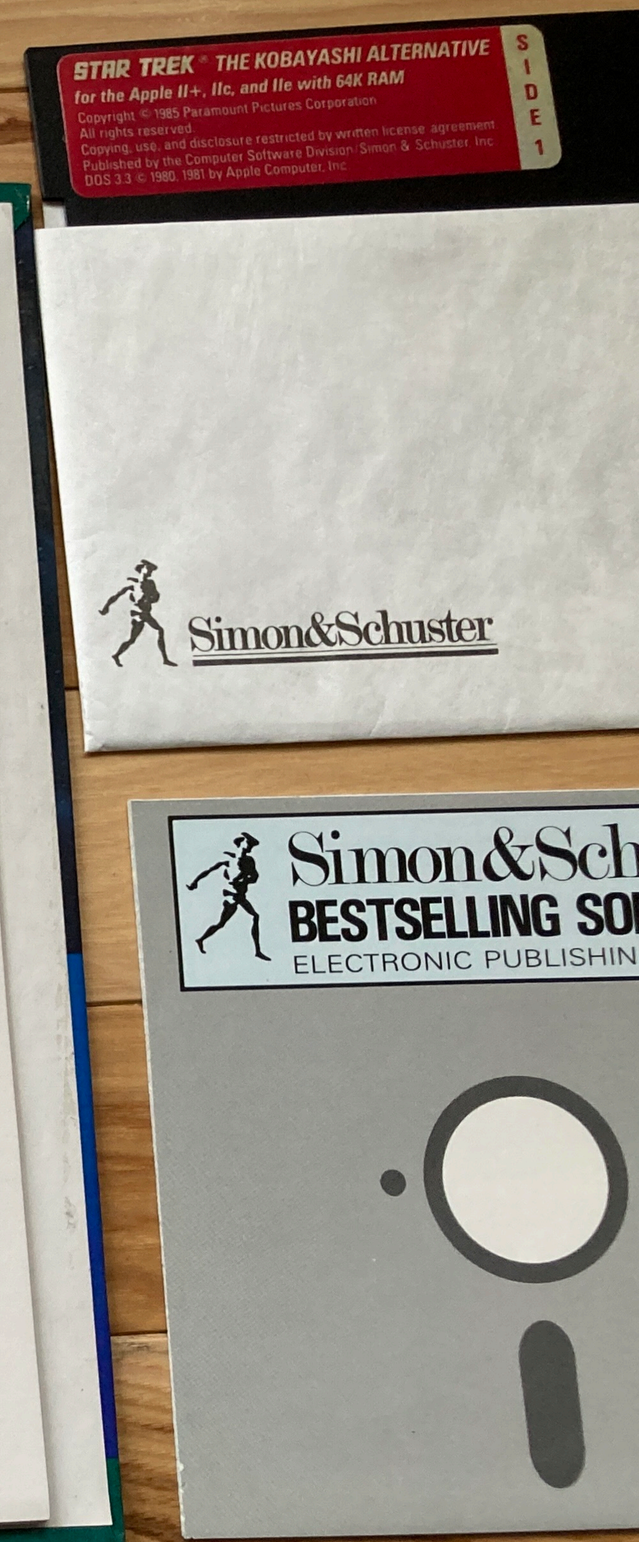
SYSTEMS

Some candidates may not have detailed information concerning the theory and operation of Constitution class starships. Since basic knowledge of these systems is required for participation in this scenario, a brief rundown of equipment structure and capabilities is included. (Excerpted from *Jane's Fighting Starships*, vol. 1, Federation Starfleet Vessels: revised edition. By kind permission of the publisher, Jane Interstellar Ltd., London WC1/Deneb V.)

ENGINES

Propulsion is by controlled matter-antimatter reaction. Total annihilation of both substances takes place within a magnetic bottle. Maximum speed: warp factor 8; cruising speed: warp factor 4; maximum safe cruising speed: warp 6. If warp 6 is maintained for more than twenty-four hours at a time, the magnetic bottle containing the matter-antimatter reaction erodes dangerously and becomes unregenerable because of magnetization of the generating equipment. Damage to dilithium crystals is also likely, especially if the crystals have seen more than 3000 hours of service. Failure of dilithium crystals (which help channel power to the warp engines from the matter-antimatter reactors in the nacelles) will force the ship to drop out of warp. The ship may proceed on impulse power until repairs are effected (usually eight hours).

Destruction of all of the ship's dilithium crystals will force the ship to proceed to a planet where they can be obtained through mining or trade. However, just getting to such a planet is likely to take anywhere from several months to several years. Captains who burn out all of their ships' dilithium crystals are rarely entrusted with another starship command.



The software program is provided "as is" without warranty of any kind, either expressed or implied, including but not limited to the implied warranties of merchantability and fitness for a particular purpose. The entire risk as to the quality and performance of the program is with You. Should the program prove defective, You (and not S&S) assume the entire cost of all necessary servicing, repair or correction.

Some states do not allow the exclusion of implied warranties, so the above exclusion may not apply to You. This warranty gives You specific legal rights, and You may also have other rights which vary from state to state.

S&S does not warrant that the functions contained in the program will meet your requirements or that the operation of the program will be uninterrupted or error free. Neither S&S nor anyone else who has been involved in the creation or production of this product shall be liable for any direct, indirect, incidental, special or consequential damages, whether arising out of the use or inability to use the product, or any breach of a warranty, and S&S shall have no responsibility except to replace the diskette pursuant to this limited warranty (or, at its option, provide a refund of the purchase price).

No sales personnel or other representative of any party involved in the distribution of the Licensed Product is authorized by S&S to make any warranties with respect to the diskette or the Licensed Product beyond those contained in this Agreement. **Oral statements do not constitute warranties,** shall not be relied upon by You, and are not part of this Agreement. The entire agreement between S&S and You is embodied in this Agreement.

7. *General*

If any provision of this End User License Agreement is determined to be invalid under any applicable statute or rule of law, it shall be deemed omitted and the remaining provisions shall continue in full force and effect. This End User License Agreement is to be governed by and construed in accordance with the laws of the State of New York.

FOR ADDITIONAL HELP

BESTSELLING SOFTWARE
ELECTRONIC PUBLISHING DIVISION
Kermit's Electronic Storymaker
With Kermit's Electronic Storymaker, children (ages 4 and up) will create their own animated series using the Muppets as actors! Kermit, Miss Piggy, Gonzo and the rest can be made to dance, fly spacechips, or sail boats in settings from the moon. While your child is using his imagination he will also be learning the rudiments of sentence structure and building his vocabulary.
Available for Commodore 64, Apple II, II+, IIe and IIc.
The Great Gonzo In Wordrider
In yet another Muppet adventure, children (age 5 and up) must overcome obstacles by combining nouns and adjectives to build animated vehicles—Climbing Ladders, Bouncing Water Squirters, Bouncing Hole-Makers, EggCatchers, Flying Obstacles keep changing, and the number of funny perils. The paths and kids can stretch their creative potential while learning and having fun.
Available for Apple II, II+, IIe and Commodore 64.
Chem Lab
Pure young chemists (ages 9 - 13) in charge of a computerized chemistry laboratory. It has everything the old fashioned chemistry sets had—burners, beakers and pressure chambers, separate dispensers for gas and liquids—all without the problems and smell. Over 50 experiments structured as amusing challenges of varying degrees of difficulty. But be careful . . . explosions! . . . the wrong chemicals, and the image on the screen
Available for IBM PC/Clr, Apple II+/IIe/IIc and Commodore 64.
The Mac Art Dept
With the Mac Art Dept you can use your imagination to create personal stationery, letterheads, newsletters, flyers, posters . . . any printed material. An easy-to-use manual explains how to take over 100 images, from household objects, plants, how-to-draw illustrations of food, musical instruments, borders to travel images, illustrations of engine cowls and necks . . . and modify them to suit your individual needs.
Available for Apple Macintosh.
The Great International Paper Airplane Construction Kit
Using the graphic capabilities of the Macintosh and Mac-Paint software, this program lets you choose from over a dozen full page airplane designs. Embellish the wings, furnish the planes with windows, hatches, landing gear, engine cowlings . . . even a pilor. Then, print your creation on the Imagewriter printer, fold . . . and take off!
Available for IBM PC, PCXT, PCjr, Apple (ProDOS Only), Commodore 64 and Apple Macintosh.

The software program is provided "as is" without warranty of any kind, either expressed or implied, including but not limited to the implied warranties of merchantability and fitness for a particular purpose. The entire risk as to the quality and performance of the program is with You. Should the program prove defective, You (and not S&S) assume the entire cost of all necessary servicing, repair or correction.

Some states do not allow the exclusion of implied warranties, so the above exclusion may not apply to You. This warranty gives You specific legal rights, and You may also have other rights which vary from state to state.

S&S does not warrant that the functions contained in the program will meet your equirements or that the operation of the program will be uninterrupted or error free. leither S&S nor anyone else who has been involved in the creation or production of his product shall be liable for any direct, indirect, incidental, special or consequen- al damages, whether arising out of the use or inability to use the product, or any reach of a warranty, and S&S shall have no responsibility except to replace the skette pursuant to this limited warranty (or, at its option, provide a refund of the rchase price).

No sales personnel or other representative of any party involved in the distribution of the Licensed Product is horized by S&S to make any warranties with respect to the diskette or the Licensed Product beyond those ained in this Agreement. **Oral statements do not constitute warranties,** shall not be relied by You, and are not part of this Agreement. The entire agreement between S&S and You is embodied in this ement.

neral

provision of this End User License Agreement is determined to be invalid under any applicable statute or law, it shall be deemed omitted and the remaining provisions shall continue in full force and effect. This ser License Agreement is to be governed by and construed in accordance with the laws of the State of New
